

5th COSPAR Symposium 2023

16 – 21 April

Space Science with Small Satellites

Hosted By

**NANYANG
TECHNOLOGICAL
UNIVERSITY**
SINGAPORE

The Fifth COSPAR Symposium will be held in Singapore from 16 - 21 April 2023, on the broad topic of “*Space Science with Small Satellites*”. The symposium will have plenary and parallel sessions addressing the emerging applications of small satellites in Earth and planetary space sciences and the disruptive applications being pioneered on these platforms. The venue for the event will be the Nanyang Technological University, ranked consistently among the top universities in Asia and the world.

SINGAPORE
