Thailand's AstroLab, an Important New Player in SE Asia, to Focus on 4 Essential R&D Topics

GISTDA (Geo-informatics and Space Technology Development Agency) initiates the Astrodynamics Research Laboratory, or “AstroLab” at Space Krenovation Park, Chonburi Province, Thailand. The AstroLab is expected to be the complete research and development center on astrodynamics and space technology innovation in Thailand and Southeast Asia region. The AstroLab team (pictured below) focuses on four essential R&D parts, find out more [here](#).
