CSA Updates

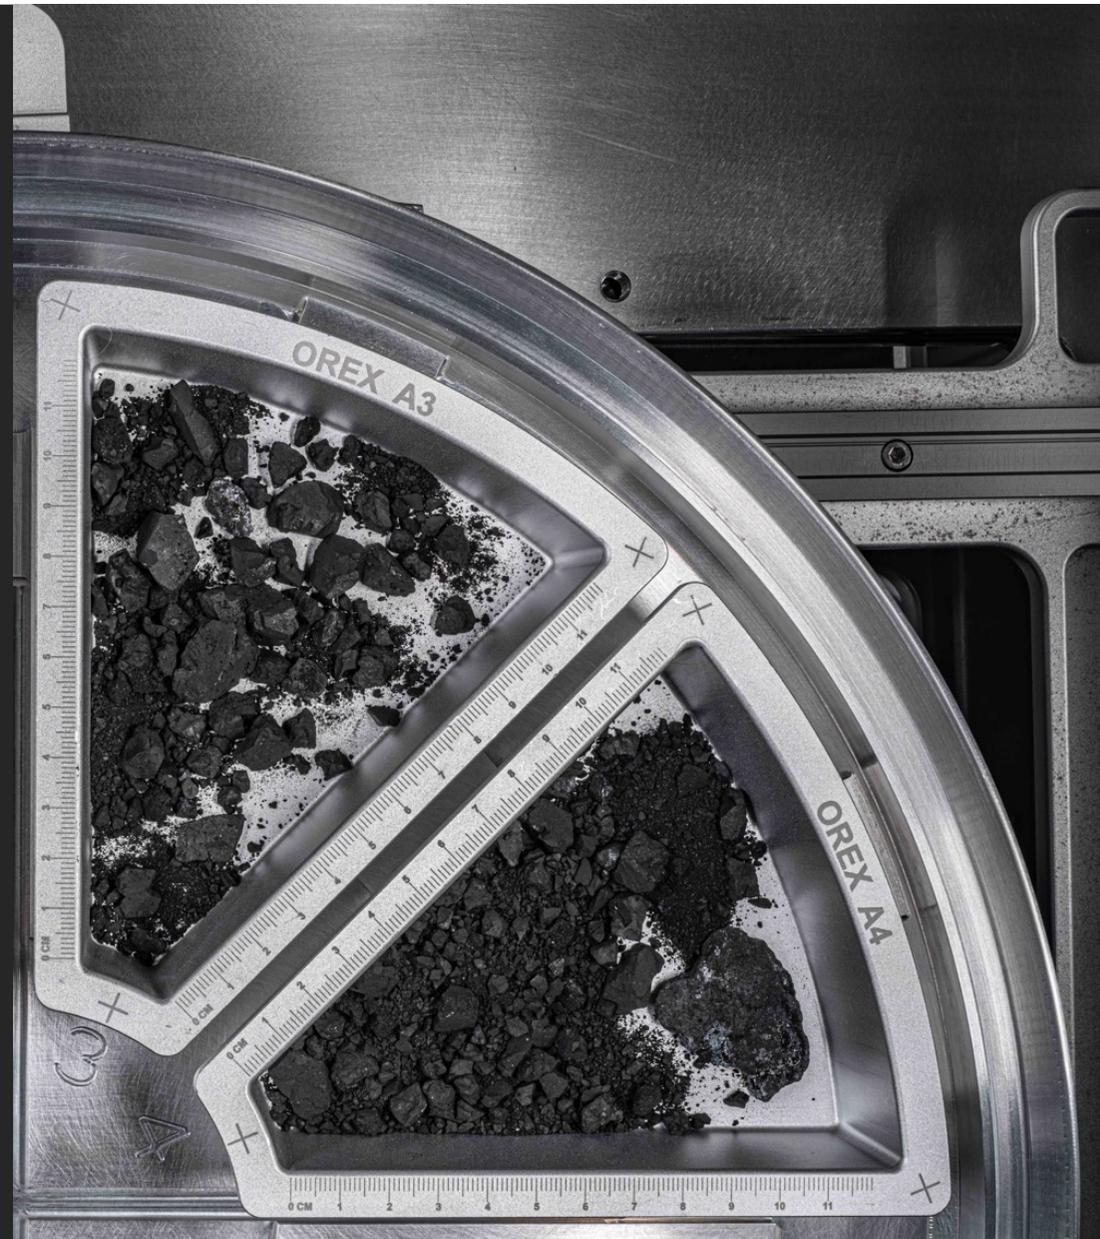

Tim Haltigin

20 January 2026

1 OSIRIS-REx Curation

- Canadian curation facility in construction targeting mid 2026 readiness
- Canada will be only the 5th country to house pristine astromaterials
- Consistent with Category V Unrestricted Earth Return

2

Lunar Rover Mission (LRM)

- Currently in Phase C
- Launch NET 2029 via CLPS program (Firefly)
- Targeting South Polar region, final site TBC
- Consistent with Category IIb Landed missions targeting PSRs and/or lunar poles
