SPACE RESEARCH

# COSPAR Committee on Industry Relations (CIR)

## Connecting Industry and Space Science Worldwide

The Committee on Industry Relations (CIR) advises COSPAR on how best to integrate the capabilities of industry into COSPAR's activities, Scientific Commissions and Panels, representing the interests of the aerospace industrial sector at the heart of global space science. Since 2021, CIR has held quarterly virtual meetings and in-person sessions at COSPAR Scientific Assemblies, collaborating with Panels on Exploration, Capacity Building, Space Weather, Planetary Protection, Innovative Solutions, and Early Careers & International Space Societies.

Through collaborative research, international workshops, policy advocacy, and industry-academia partnerships, CIR finalized its strategic plan that is being implemented by COSPAR, and addresses many issues of importance for future relations between COSPAR, the space science community and industry.

### Why Join?

#### Partnerships

Organize B2B and industry-driven events during Assemblies

#### Global Networking

Access world-wide networks of scientists and organizations

#### Scientific roadmaps

Contribute to defining COSPAR's strategy

#### Workforce

#### development

Tap into a 14,000+ network of Associates

## Enjoy the benefits of supporting COSPAR

By supporting COSPAR your company will be directly connected to the global space science community, its Commissions and Panels, and COSPAR events, in addition to your critical contribution to CIR.

Benefits	Industry Partner 25 000 €	Industry Supporter 10 000 €	Industry Associate 5 000 €
Number of Liaisons	5	2	1
Council Observer Status	✓	✓	✓
Listed on COSPAR Website	"Industry Partner"	"Industry Supporter"	"Industry Associate"
Input to Scientific Roadmaps	✓	-	-
Annual Promotion	High Profile	1 Publication p.a.	Logo Only
Free Assembly Registrations	5	2	1
Free Symposium Registrations	2	1	-
Booth Discounts	✓	✓	-
